

Company Overview

Stewart & Stevenson

Building For The Next Century

Stewart & Stevenson is a leading designer, manufacturer and marketer of specialized equipment and a leading provider of aftermarket parts and service to the oil and gas and other industries that we have served for over 100 years. Our diversified product offerings include equipment for well stimulation, well workover and service, drilling, coiled tubing, cementing, nitrogen pumping, power generation and electrical systems, as well as engines, transmissions and materials handling equipment. As a result of our long history and product quality, we have a substantial installed base of equipment and our commitment to providing aftermarket parts and service remains a significant portion of our proud tradition. We also provide rental equipment to a broad range of customers. Headquartered in Houston, Texas since 1902, we operate from a network of 53 strategic locations. Leveraging more than a century of business excellence, we are building for the next century.

Engineered Products

Stewart & Stevenson designs and manufactures customer-specified equipment for the oilfield and other industries that includes stimulation systems, Crown rig systems, control systems, coiled tubing systems, cementing systems, nitrogen and industrial gas systems, and power generation systems. Stewart & Stevenson is a leading provider of well stimulation equipment in North America.

■ Stimulation Systems

- Fracturing Pumps
- Fracturing Blenders
- Chemical Additive and Hydration Systems
- Data Acquisition and Control Centers (Data Vans)
- Acidizing Units
- Support Equipment

■ Crown Rig Systems

- Workover Rigs
- Flushby Units
- Drilling Rigs
- Support Units
- Commissioning and Servicing
- Retrofitting
- Parts Supply

■ Control Systems

- Digital Meter
- IPC Pump Controller
- AccuFrac™ Systems
- Control Centers
- DAQPAQ

■ Coiled Tubing Systems

- Coiled Tubing Units
- Injector Head
- Coiled Tubing Drilling Units
- Support Pumping Units

■ Nitrogen and Industrial Gas Systems

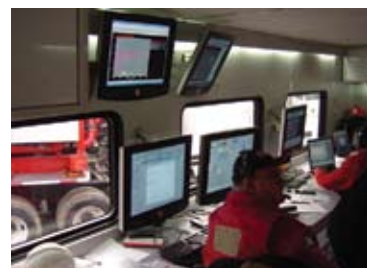

- Nitrogen Pumping Systems
- Heat Recovery Units (Non-fired)
- Fired Nitrogen Pumps
- Membrane System
- Industrial Gases Equipment

■ Cementing and Pumping Systems

- Cementing Equipment
- Recirculating Cement Mixing System
- Bulk Transport Units
- Smart Mixing System

■ Power Generation Systems

- Onshore Packages
 - 10 Models, 2 Engine Families
 - 140–2425 hp (85–1633 kW)
 - Prime Rig Power, SCR and VFD Systems
 - Emergency and Auxiliary Power
 - Pump Packages, Pump Drivers, Natural Gas Power Packs
- Offshore Packages
 - 16 Models, 3 Engine Families
 - 932–11,995 hp (661–8680 kW)
 - Prime Rig Power, SCR and VFD Systems
 - Emergency and Auxiliary Power
 - Oversized Generators to Meet Low Power Factor Requirements
 - IMO and Marine Classification Society Certified Generator Sets
- Auxiliary Products
 - Drive Systems
 - Micro Plus SCR
 - Micro Plus AC Drive
 - Switchgear
 - SmartLink 2000™

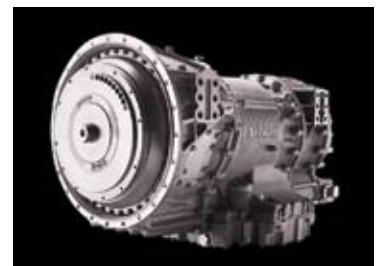

Support Equipment & Services

Stewart & Stevenson's broad product line supports mining, marine, construction, materials handling, agriculture, transportation and many other areas of demand for power generation.

■ Specialty Products

- Standby, Emergency, Prime and Backup Power Generation
- Marine Engines, Generators and Electronic Controls
- Materials Handling Equipment
- Agriculture Pump and Generator Sets
- Diesel Engines
- Natural Gas Engines
- Transmissions
- Air Compressors
- Accessory Products
- Rail King Railcar Movers
- Seismic Equipment
- Hybrid Conversions
- Rental Equipment
- Service and Repair

■ A Full-Service Provider

Stewart & Stevenson is a full-service provider to our clients.

We offer:

- 24/7 Service by Certified Technicians
- Genuine OEM Parts
- Equipment Commissioning
- Operator Training
- Maintenance Contracts
- Financing
